Enterprise Manager – Product Category

Enterprise Manager System Administration

Topics Covered

- How Enterprise Manager fits in your network
- Enterprise Manager Client software application
- Discover, manual addition and removal of nodes in the inventory
- Establish system Data Synchronization to MiVoice Business nodes
- Add a Directory Server node
- User Node Management tools and applications
- Auto-grouping and user defined groups
- Users, groups, and profiles using Security Administration
- Enterprise Manager Policies
- Enterprise Manager alarms and events
- Collecting voice quality statistics
- Enterprise Manager Reports
- Real time and historical MiVoice Business bandwidth management statistics
- Tools and applications
- Identify and troubleshoot Enterprise Manager problems
- Enterprise Manager log files
- SNMPv3 trap forwarding and security

Audience

This self study System Administration course is designed for anyone wishing to configure, monitor, and maintain Enterprise Manager.

Before enrolling in this course it is recommended that you have hands-on experience with MiVoice Business systems.

Note that this course contains lab exercises so it is recommended that you have a local Enterprise Manager system available for use during the training.

Duration

24 hours

Self-Study

Part Number: 53001831

MiVoice Office 250 (5000 CP) – Product Category

MiVoice Office 250 System Administration

(formerly 5000 System Administration)

Topics Covered

- Hardware and Software Configurations
- Using System Administration and Diagnostics
- Configuring System Features and Applications
- Configuring Basic Voice Mail and other applications
- Using Basic and Advanced Features and Functionality of MiVoice Office

Audience

This course is intended for end users who are responsible for day-to-day operations and administration of the MiVoice Office 250 system.

Remote training will require additional equipment at the student location. Please refer to the Course Description for details.

Self-Study course will use videos instead of hands on experience to convey items normally covered in labs.

Duration

5 days
