Cloud AI

MiVoice Business

MiVB Solution Roadmap Highlights

MiVB Call Manager

- Expanded Public Cloud deployment
- Embedded voicemail enhancements
- SMB Controller
- New EX Controller
- Cloudlink Gateway

MiCollab & UC

- Telephony-only client
- Mitel Assistant for MS Teams Integration
- Improved WebRTC support
- Improved Mobile/Softphone Experience

Subscription

- Simplified Admin for Partners & Customers/Users
- Simplified Change Order Processing
- Modernized Subscription Tooling

Business Value

- Continued expansion of Deployment Options
- Optimized Deployment Footprint
- Cost effective Small Business / Branch Office form factor
- Improved onboard applications support
- Better workplace workflow integration
- Improved UC application usability
- Easy to manage, easy to consume

Choice of deployment, choice of payment, easier to manage, easier to consume

MiVB Hardware Platform Evolution

CX II

CX replaced with SMB Controller

SMBC

MXe III / Mxe III-L

MXe replaced with EX Controller and AX for HD analog

EX

AX

AX remains, although use is focused at HD analog and sees no new feature development

AX

Introducing 6920w, 6930w, 6940w IP Phones

- New 'state of the art' versions of popular 6920, 6930 and 6940 IP Phone models featuring:
 - Embedded WiFi - dual band (2.4GHz & 5GHz) IEEE 802.11a/b/g/n
 - Bluetooth 5.2
 - Energy Efficient Ethernet (EEE) support
- Common to all 3 models
- Available for ordering
Delivery Q3/Q4 2022

6920w

Mitel 5617/19

- 1 Wideband audio support
- 2 IP65 Protection Class
- 3 2.4" display
- 4 IR location support
- 5 Bluetooth incl BLE support
- 6 Noise cancelling with two microphones
- 7 Multi function button
- 8 Multi color LED
- 9 Removed TPE material
- 10 3.5 mm headset contact

Collaboration

Mitel MiCollab

MS Teams integration

MiCollab & Mitel Assistant: Roadmap Highlights

ROADMAP ITEMS

- Increase capacity on MiVB
- Enhance mobile UX
- Call history sync with MX-ONE
- Wifi-4G/LTE handover & voice quality reports
- Group handling - MiVO5000 / MX-ONE
- Flexible deployment options
- MiCollab telephony-only client, line state presence, and call history (for MS Teams)

BUSINESS VALUE

- Address larger customers
- Meet market demands for mobile client
- User experience enhancements
- Enhance mobile user experience and reporting
- Differentiator! Tighter integration with Mitel call server
- Ease of installation / TCO
- Bring Mitel telephony value to MS teams users

Enhance ease of use, accommodate larger customers, adapt to the diverse ecosystem, and meet market and partners demands

MiCollab Client

Single Access Point For All Business Communications

- **One Number Multiple Devices**
- **Dynamic Status**
 - Device selective ringing
- **Presence**
- **Click-To-Call**
- **Contact Management**
- **Call History**
- **Instant Messaging**
- **Visual Voice mail**
- **Softphone with Video**
- **Collaboration: MiTeam Meetings**
- **PC / Mobile / Web clients**

MiCollab CloudLink Authentication / User provisioning

To accommodate the trend with customers moving to Microsoft Cloud infrastructure, MiCollab supports AD Azure (SAML2 and SCIM)

- CloudLink Authentication will support
 - SAML2
 - AD Azure
 - Multi Factor Authentication
- Single Sign On between MiCollab – MiTeam Meetings
 - If a user is already signed into MiCollab, he/she should not need to sign on again with MiTeam Meetings
- User Provisioning (MiVB)
 - SCIM
 - Provisioning of users from CloudLink via IDS
 - AD Azure

Not supported for:

- Legacy Client
- AWV
- End User Portal

Mitel Options when facing a Microsoft Teams deployment

MS Teams Assistant + Mitel UC client

- Telephony-only system tray client
- Mitel App downloaded from MS Team Store
- Works in conjunction with Mitel applications for outbound calls of a Mitel phone such as:
 - Deskphone
 - Softphone on PC or Smartphone
 - External devices (e.g. GSM)
 - Other devices (e.g. DECT)

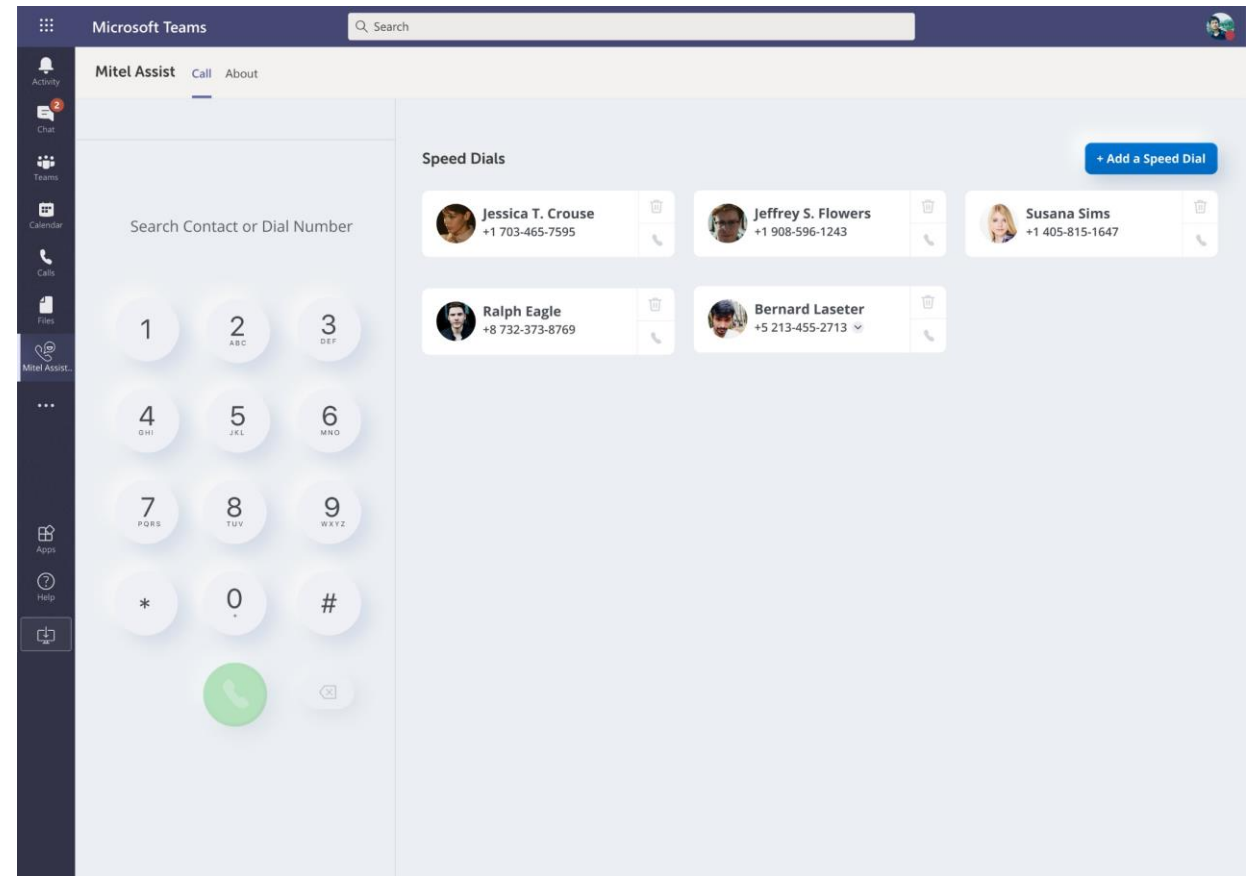

Direct Routing/Call2Teams

- OTT SIP connection between Mitel systems and MS Teams to allow dialing between platforms
- Allows users on MS Teams to access trunks on Mitel systems or SBC

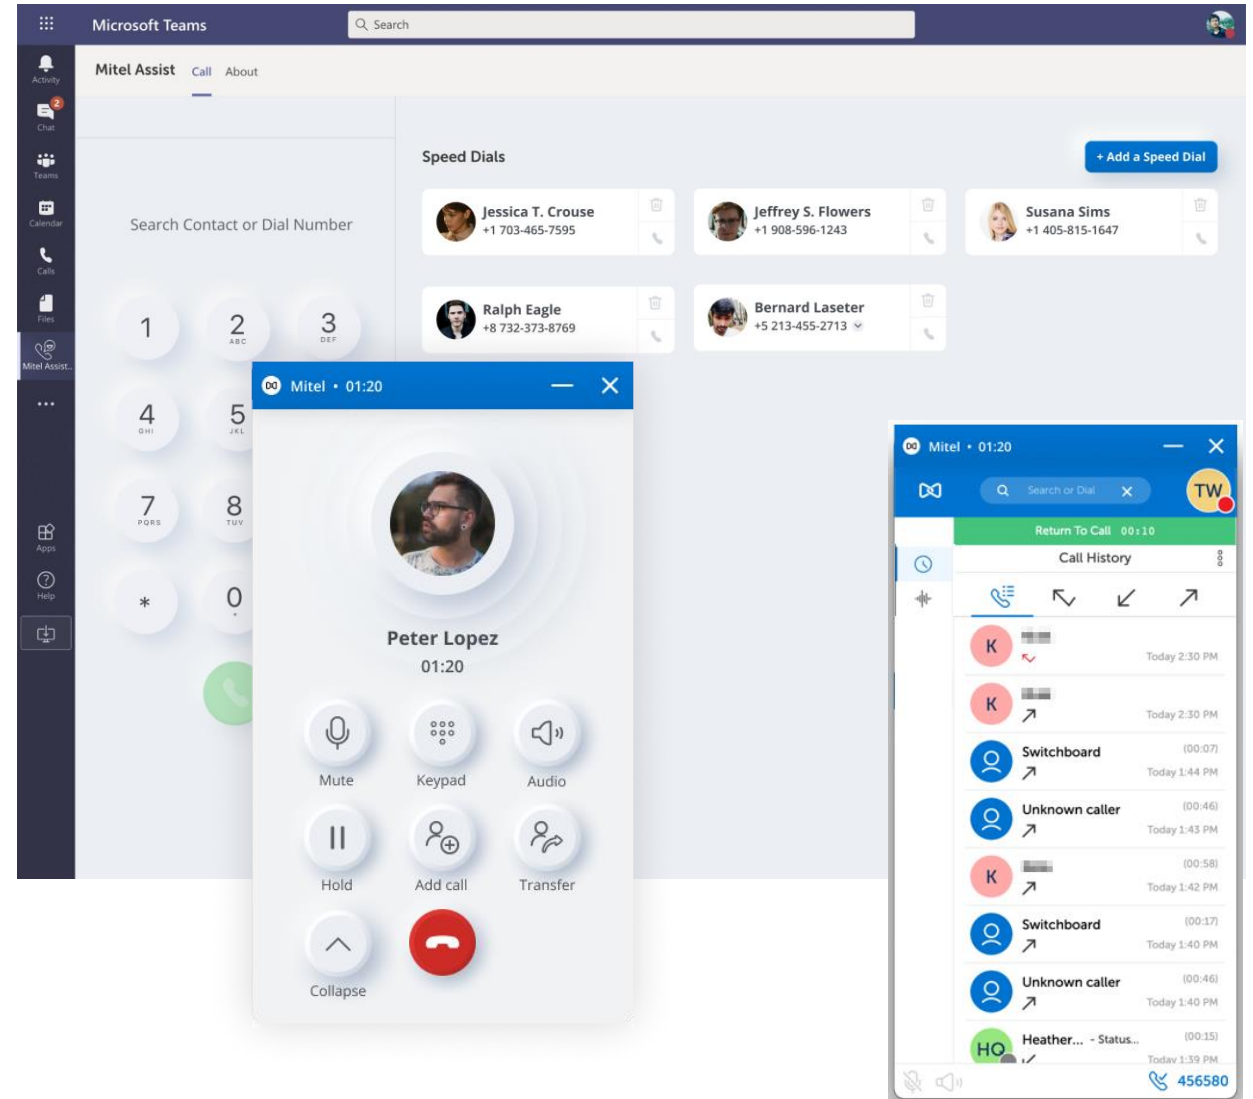

Mitel Assistant for MS Teams

- MS Teams users can:
 - Search directory and initiate calls
 - Dial arbitrary numbers
 - Add speed dial contact cards
 - Escalate existing chat sessions to a voice call
- Eligible to:
 - MiCollab UCC Entry
 - MiCollab UCC Standard
 - MiCollab for Microsoft uplift
- New: Cloudlink Gateway enabled features
 - Mitel line state sync
 - Call History

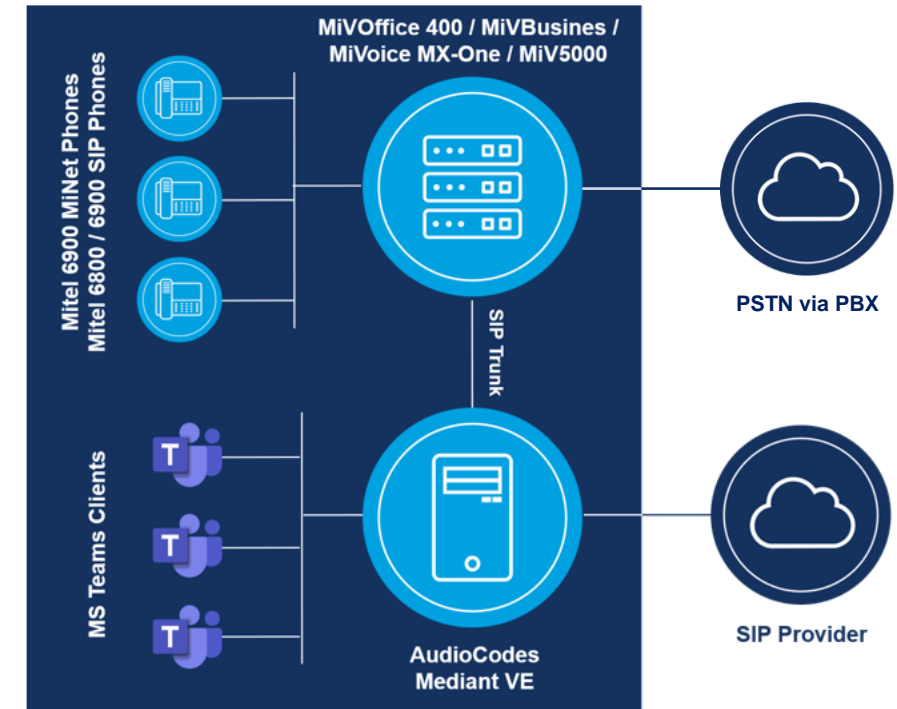

Telephony Only Client – Preview

- **Simplified MiCollab Client**
 - Always hidden in system tray
 - Call history
 - Dynamic Status
 - Group presence
 - Softphone
- **Mid-call Floater**
Access to all mid-call features:
 - Keypad
 - Mute
 - Hold
 - Transfer
 - Conference
 - Drop call

Direct Routing - Mitel, MS Teams and Certified SBC's

- SIP-trunk between MiVoice PBX via SBC to MS Teams
- Users on either platform can direct-dial other users as well as access PSTN from SBC or PBX
- Full telephony integration in MS Teams including dialing from contact cards, escalate from chat etc.
- Requires MS-certified SBC*
 - AudioCodes Mediant, Ribbon SBC, etc.
- No Mitel software or apps involved
- Requires Mitel EHDU capability
 - Included in UCC Entry and UCC Standard
- Requires additional Office/MS 365 Licensing (Phone option**)

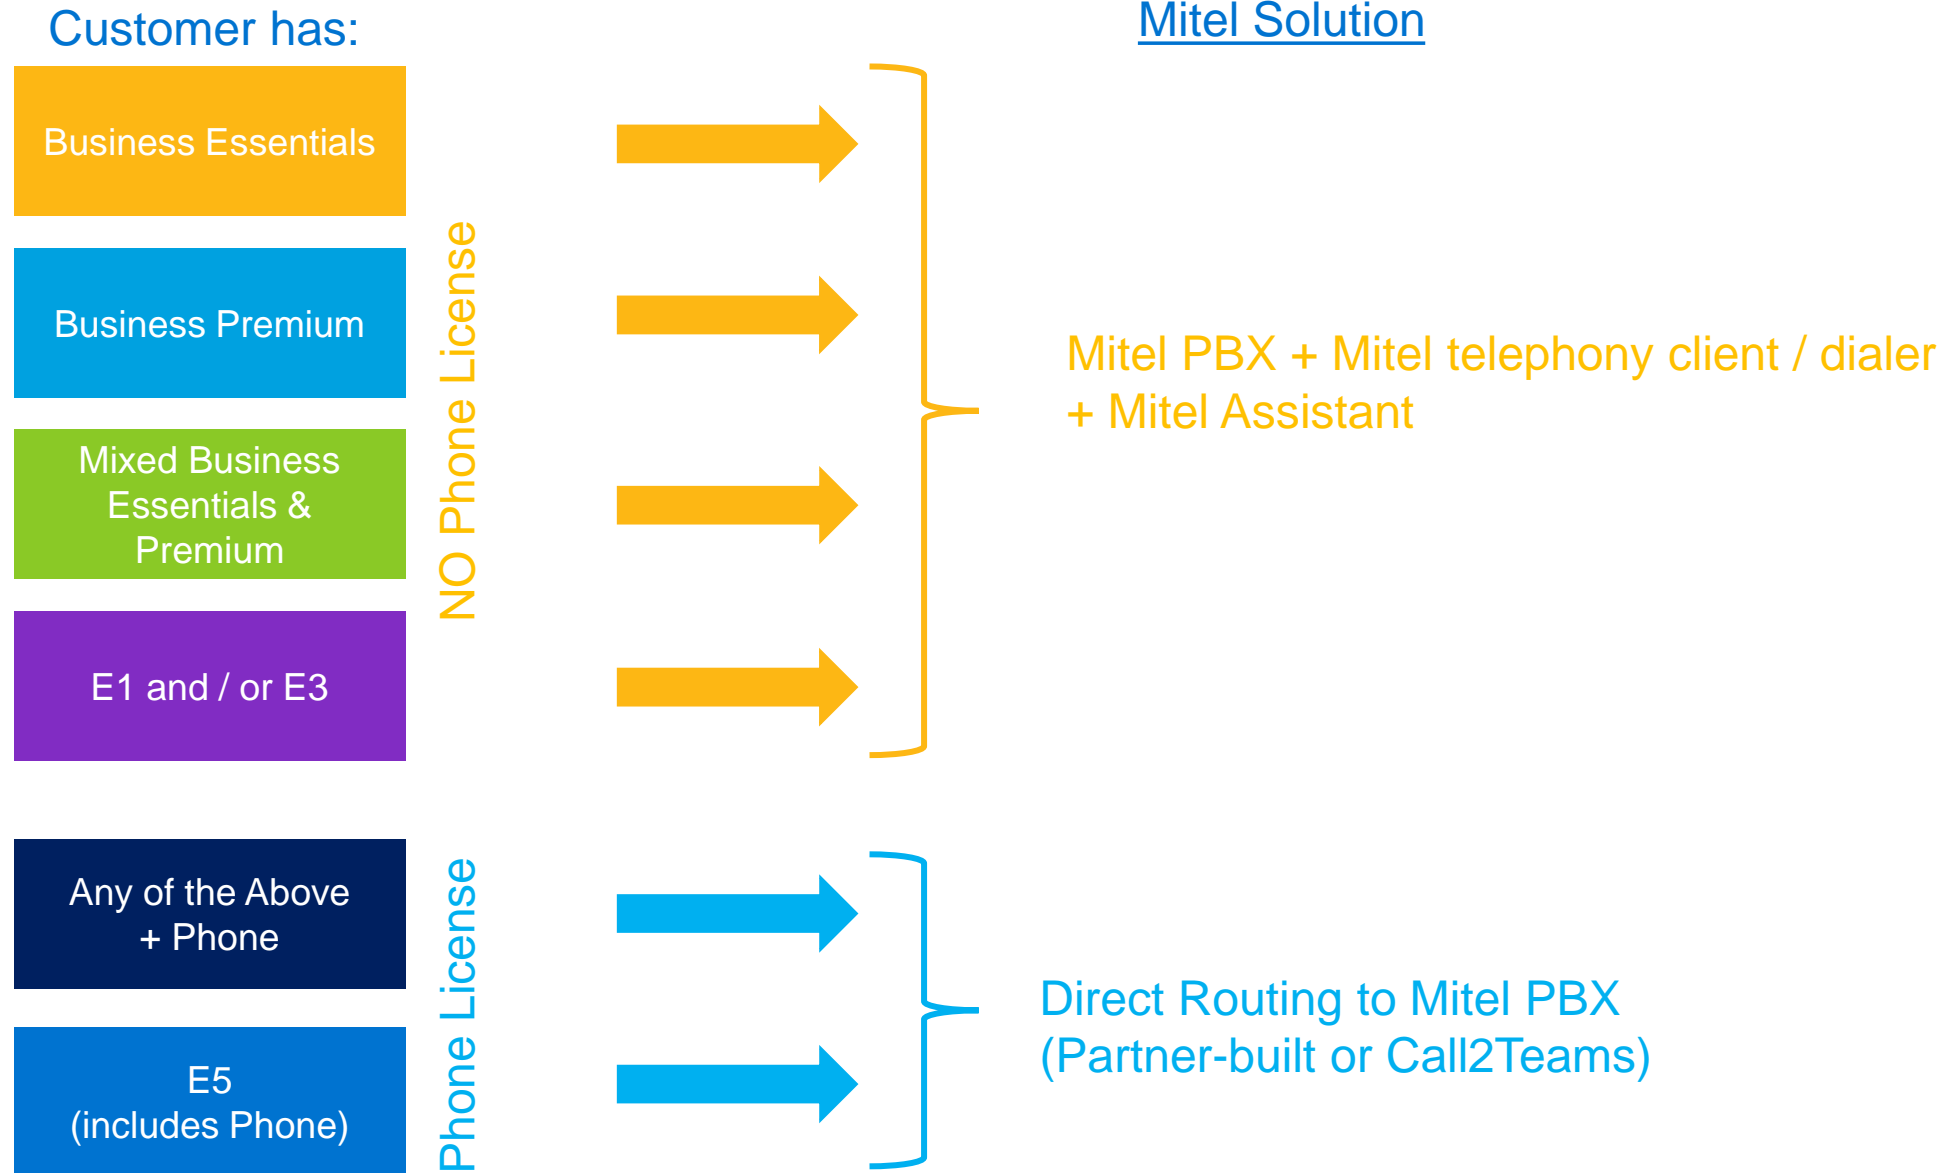

*Direct Routing certifications have been performed using the AudioCodes Mediant SBC (common firmware/support for Mediant 500L/500/800/1000/ CloudBond 365).

**Included with Office/MS E5 License. Requires separate Phone System add-on license for E1, E3, E4.

Solutions / Options to Consider

MiContact Center

MICC BUSINESS

Strategic Plan & Roadmap Priorities

Deployment & Commercial Choice

Contact Center for core UC Platforms
On-site, Hybrid, Cloud, Subscription

Intuitive Experience

Refreshed UX
WebRTC client
Artificial Intelligence and more

Advanced Insights

Modernize analytics leveraging Mitel Insights

Integrations and APIs

Extensible with integrations, leveraging workflow and APIs

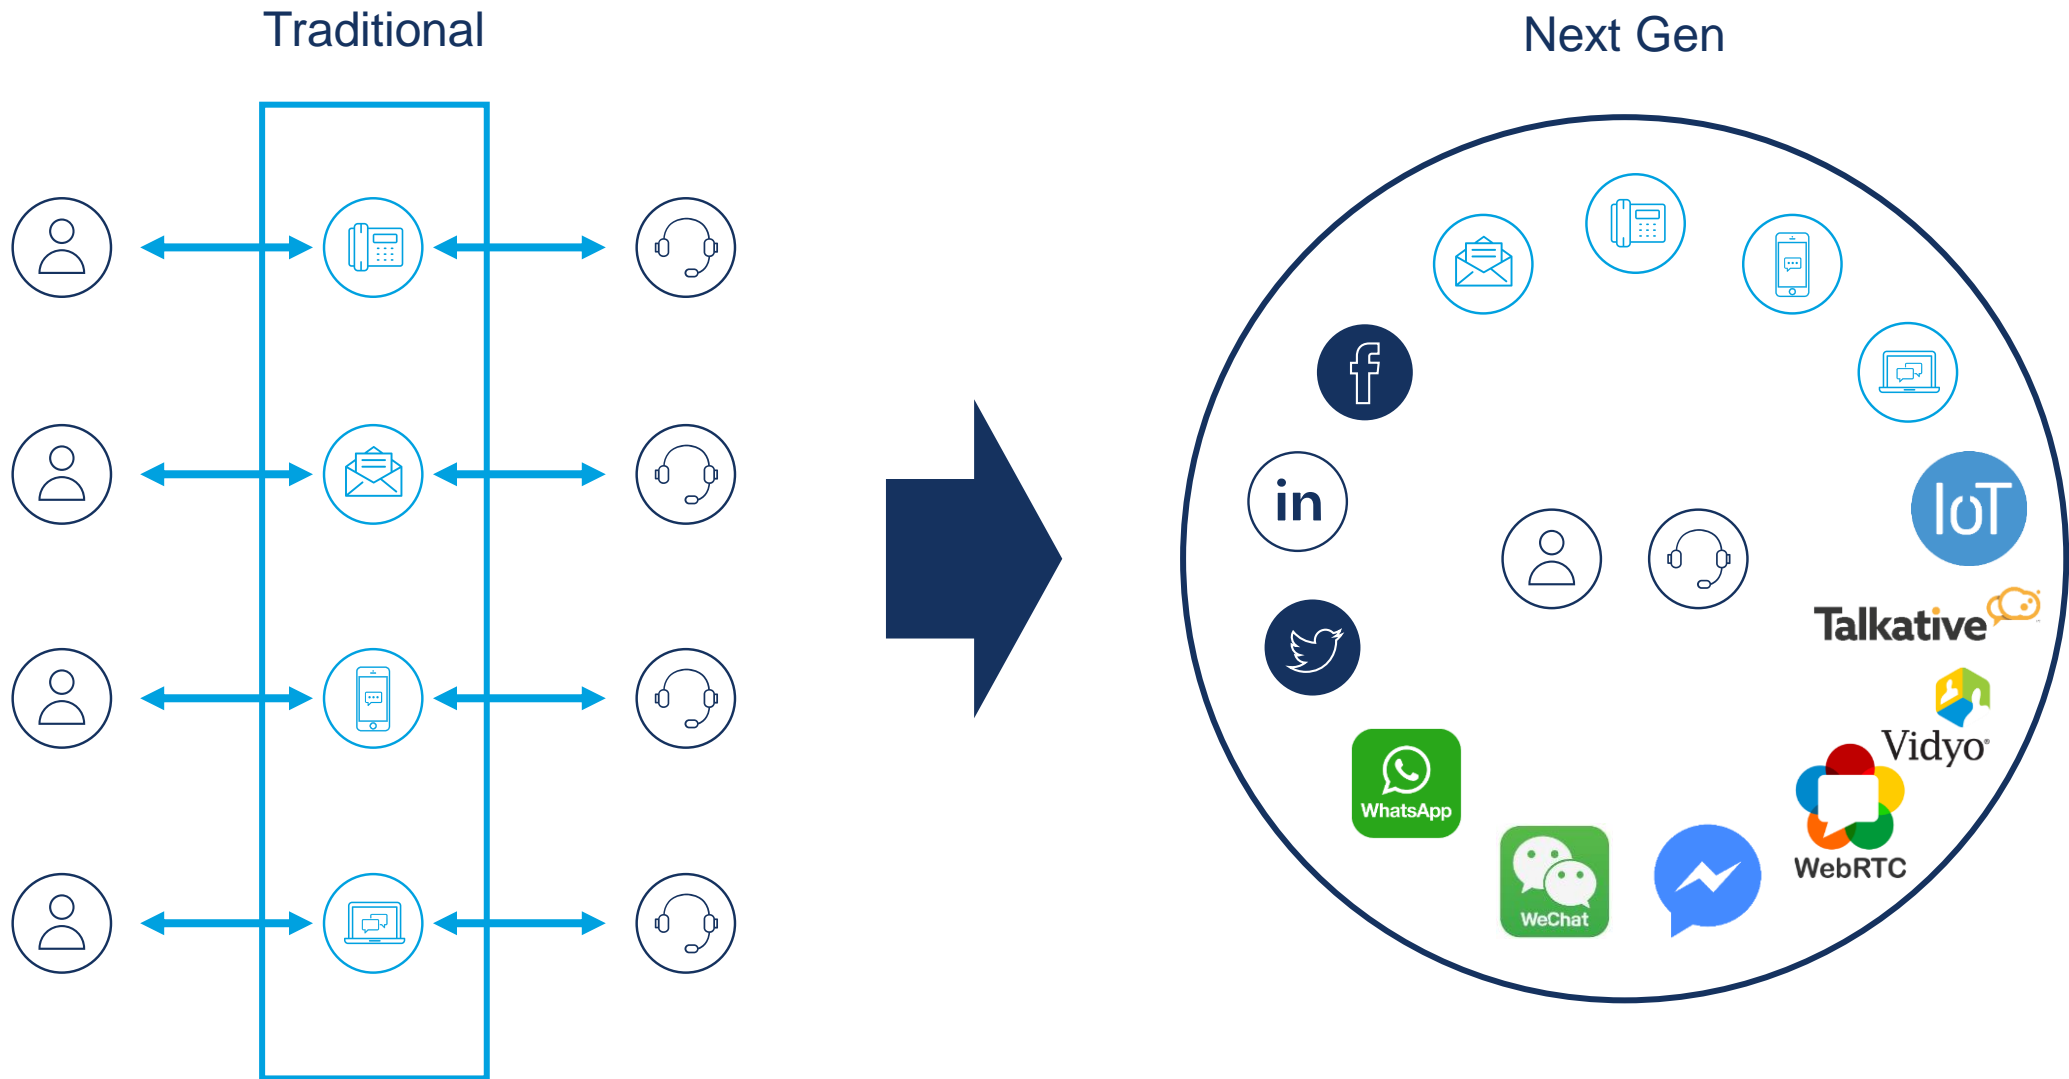

Secure, Stable, & Scalable Platform

Resiliency Across Platforms

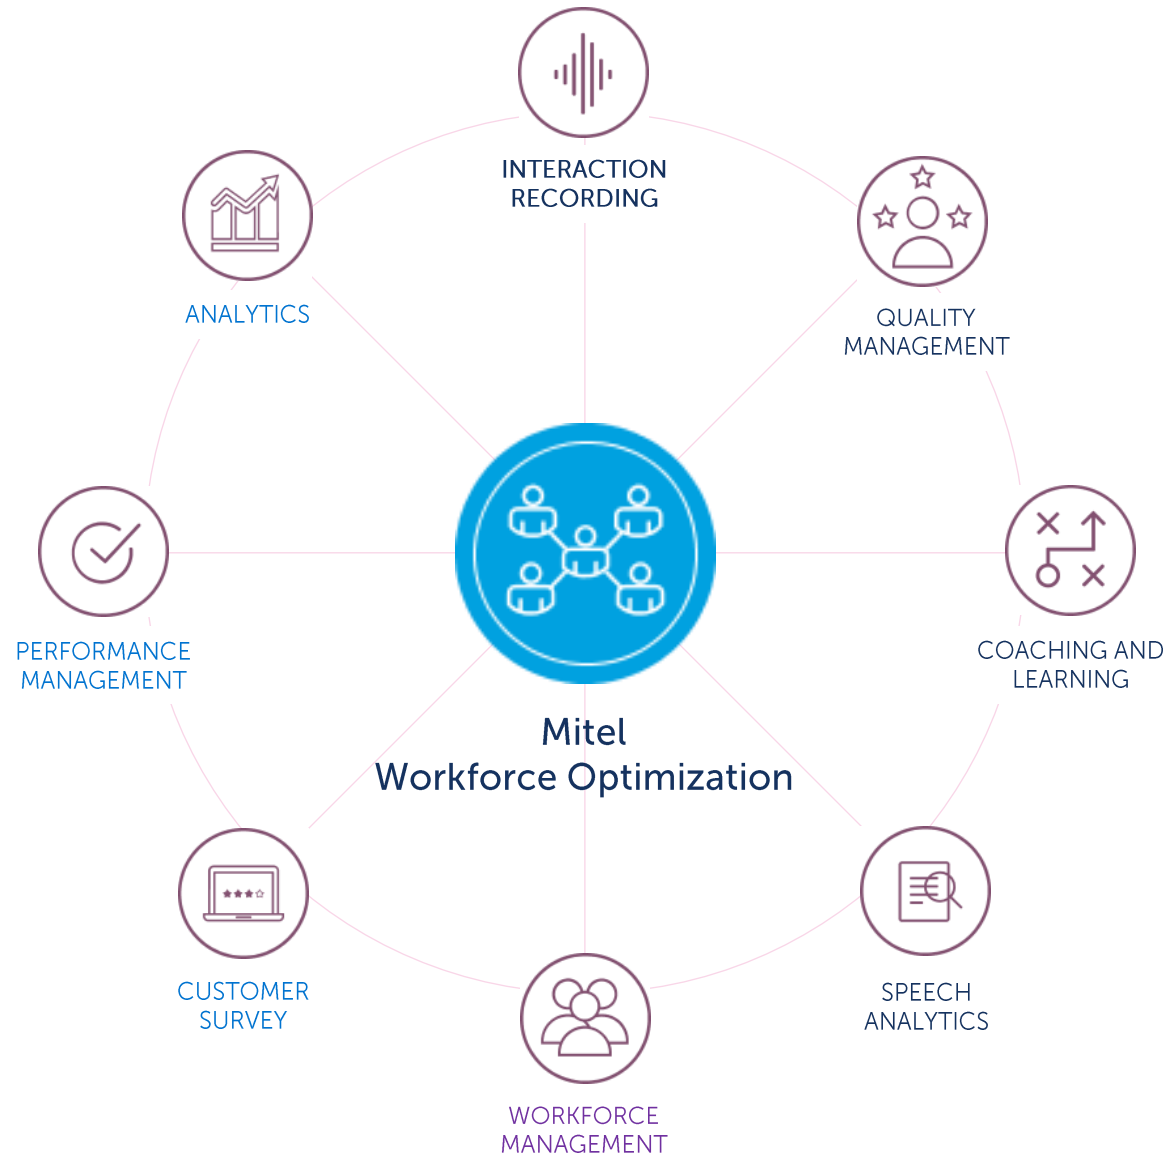

Expand feature and capabilities based on market traction and success

The Next Gen CX is Omnichannel

Mitel Workforce Optimization

Mitel CRM connector

- CRW web plugin with ignite features
- Supported on multiple CRM platforms, including

The screenshot displays the Dynamics 365 interface for a contact named Lieven Garcet. The contact information is as follows:

CONTACT INFORMATION	
Full Name *	Lieven Garcet
Job Title	Sales Engineer
Account Name	Mitel Belgium
Email	lieven.garcet@mitel.com
Business Phone	+3227271874
Mobile Phone	+32476950587
Fax	-----
Preferred Method of Contact	Any
Address	-----

Additional details shown include the owner (Jean-Pierre Darenne) and a call log for a call on 06/29/2022 at 14:26:30. The call log entry includes a comment: "This is a default comment after call received from 00032476950587 to Jeroen Krabbe".

VALUE PROPOSITION

Web Ignite support for WebRTC Softphone Solution

Partners

- Address long-standing customer request
- Cleaner product demo for new prospects
- Simplified deployment

Customers

- No desktop client install on each PC lowers cost to deploy
- Simplified agent login and user experience
- Flexible work options (office, home, hybrid)
- Flexible telephony options (desk phone, desktop softphone, WebRTC softphone)

MITEL INSIGHTS

Powered by

Metabase

- Out of the box solution, with curated Dashboards
- Hosted in the Accounts Portal
- What are the most popular metrics customers would want to see?
- Can bring a modern Analytics solution to other existing products, such as MiContact Center Business or MiCollab.

Mitel Performance Analytics

You've Got QUESTIONS

Do I have a voice quality problem?

What's the cause of the problem?

How can I troubleshoot and resolve problems more efficiently?

How can I get more visibility into my network?
